treka
S E R I E S

The Treka notebook is available in either 20 Mhz 40 Mb or 25 Mhz 80 Mb versions and fits comfortably into a briefcase. With up to 8 hours' battery life, it can be used productively away from home or office but can easily be plugged into a high-resolution monitor for applications requiring detailed graphics.

In addition to the standard ports, Treka has an extra socket to take a fax modem so you can transfer data quickly and easily. Like all AMBRA models, it comes ready to run with DOS and Windows and detailed user friendly manuals so you can switch on and start working immediately.
